Omega-3 oils

- Considered the most critical building blocks of the brain. Helps improve brain membrane fluidity, so nerve impulses, or messages, transmit more effectively.
- Supports heart, brain, and skin health.
- Helps support cardiovascular health and healthy mood balance.
- Supports visual development and healthy nervous system development.

Vitamin D3

- Vitamin D3 helps the body to effectively absorb calcium, which is essential for providing structural support and maintaining bone and teeth health.
- It also plays an important role in promoting heart function, supporting muscle health, and strengthening the immune system.
- Vitamin D is normally obtained from the diet or produced by the skin from the energy of the sun. However, it is not abundant in food. As more kids avoid sun exposure, Vitamin D supplement becomes even more necessary to ensure that the body receives an adequate supply.

D-Omega Drops

D-Omega Drops Unique Advantages

- Each serving of D-Omega Drops contains: 167 mg Omega-3 fatty acids (equivalent to 50 mg DHA / EPA), plus 400 IU Vitamin D3.
- The source of the D-Omega fatty acids is from fish caught from the seas and oceans and sustainable fisheries in Iceland, which is one of the best sources in the world and one of the highest quality due to the availability of rich and high-quality fish and is subject to strict controls by government agencies.
- Contains natural citrus flavors (orange and lemon) to help children accept the taste.
- Made with only high quality ingredients. Non-GMO and free from gluten, dairy, soy, artificial colors and sweeteners.
- The drops can be put in children's food, milk, or juice.
- The packaging of the D-Omega Drops product contains a distinctive dropper and advanced technology that allows accurate determination and measurement of the number of drops, and works to remove pollution risks such as pollution resulting from rubber droppers.
- The package size of D Omega Drops is 30 ml, which serves 47 dosages, more than 1.5 months worth of dosages for each bottle.
- Suitable for children from one year up to 13 years old.
